1. **8/29/17:** Please have your current landscape company submit the current irrigation schedule (e.g. what days per week? Running time?). Our last update was 6/26/2016.
2. **5/18/2016: Meter 6:** Water District is reporting that these fire service meters have shown usage every month, including most current bill. Both of these meters have consistent usage every month which is not normal. Please investigate these meters for the following possibilities: Incorrectly categorized meter, leaks, or non-authorized usage. Please refer to an updated map showing meter locations, and please email any findings to water@aelandscapedesign.com.
3. **3/15/2016: Building 12:** This building has a bib that is leaking, (Maintenance was made aware). Please update us with status if this has been repaired. Please email to water@aelandscapedesign.com when complete.

WATER USAGE ANALYSIS SUMMARY

(See individual meter reports for more detailed information)

DOMESTIC

Property does not pay for tenant's water usage.

Water bills are issued when units are vacant. We have set a zero budget, so if there is any usage during vacancy you are alerted so you can confirm usage.

FIRE

Water bills show consistent usage on the following fire meters:

Fire Meters 6, 18, 19: meters have shown consumption consistently every month from 8/26/15 water bill reading, to present. **(18 is in on sidewalk approximately 10 south of units 38/34. Meter 19 is at the base of units 31/27, 6 is in front of the school/learning center)**

(See recommendations).

Meter# 6: Water Management initially tested this meter and backflow while on site (09/10/2015), and it appears to service both the learning center buildings.

UNDETERMINED

These meters are being charged monthly but consistently have no usage.

Please investigate meters and disable meter if not necessary to avoid monthly charges.

02/28/2017:

Please see Customer Service comments below.

Good Morning Brian,

I have spoken with the representative that you talked to on the phone yesterday, and I believe there may be some confusion! He stated that you had given him a specific account number that did belong to a "fire" meter. The meter number 183799 that you have questioned below, we believe belongs to the daycare. We are unable to give an exact location where this meter distributes water to, but our billing department does have notes from a few years ago stating that this meter belongs to the daycare!

Please let me know if you have any further questions and/or concerns.

You are currently paying \$51.75 per month (\$621.00 per year) in Undetermined meter charges. Please investigate these Undetermined meters as soon as possible so we can either: disable these accounts and their charges or move these meters to a different category

Pressure Testing:

In order to ensure that each resident is receiving optimal water pressure, we have recorded each building's psi (pounds per square inch). We have organized all the readings in order of highest pressure readings to lowest pressure, see chart below. Desirable water pressure is between 45 and 75 psi. High pressure can cause loud pipes, pinhole leaks in joints, and water hammering; pipes loudly banging inside of walls due to air in the water lines. While low pressure could be a sign of multiple problems; mineral deposits in pipes, leaks, or a faulty pressure regulator.

Please see sitemap attached indicating locations and building numbers. Please find a list of the pressure readings in order of highest pressure test: Building number 9 has 1 bib that registered a pressure of 75 PSI (moderately high). These are the only pressure/bib issues on entire property; all other unit pressure is in desirable range.
